

Software for Elbit-ELOP Tauvex_Satellite Telescope

- Tauvex Satellite Telescope – Elbit-Elop, SPACE Division

In this field as in others, **Chaban group**, Israel's Leader in the development, production and marketing of universal, **automatic test equipment (ATE)**, Provides you with the optimal solutions for the Development of software and manufacture of **Elbit-Elop Tauvex Satellite Telescope**. The test equipment is based on **PC platforms**, Software, as well as **automatic test equipment for Elbit-Elop Tauvex Satellite Telescope**.

The test equipment is based on **PC platform**, and Combines standard off-the-shelf items such as data acquisition cards, etc., with specialized but modular hardware And software components that are developed at **Chaban**.

The software receiving high speed communication data stream than contain Telemetry and video data for three space Telescopes.

The software analyze the data and display the video while saving the data to disk for playback and performance analyses.

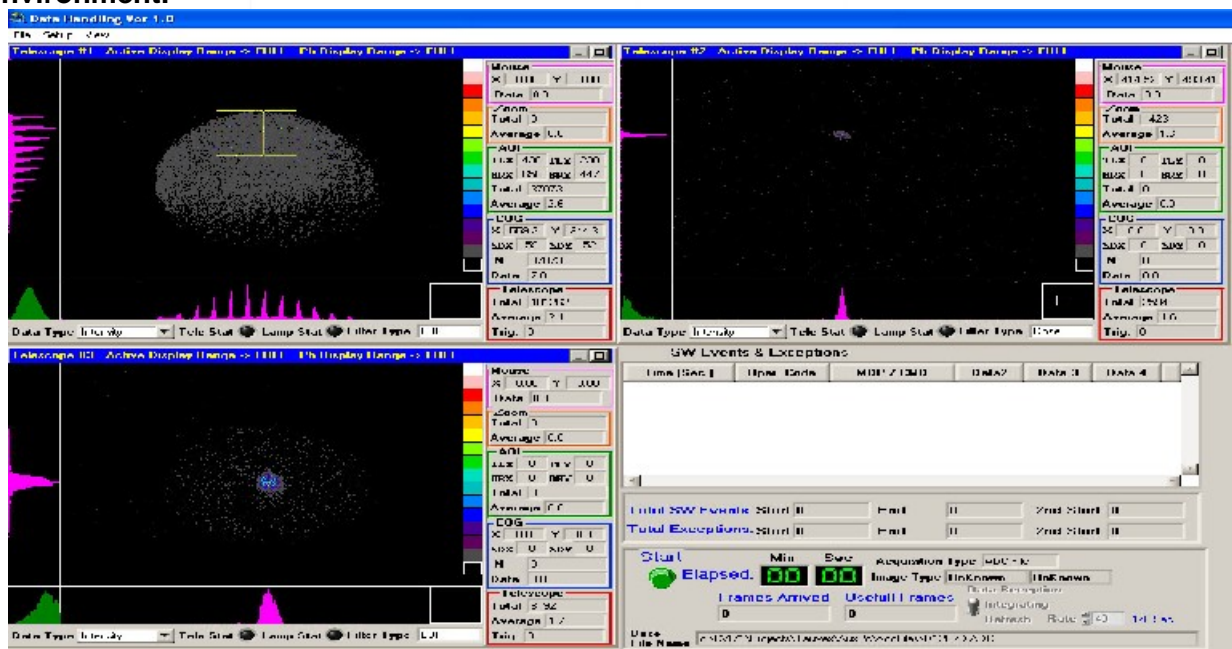

The software is used for product development and qualification for space flights.

Software is developed with **Lab Windows CVI** environment.

Chaban Group's three unique Divisions provide our customers with an **Exclusive Turnkey** Product from the developmental phase To the final production.

A variety of products are at your disposal:

- **Engineering soft panels** for the development and Verification of the product during development phases.
- Software for P.O.D. (proof of design) tests during acceptance of operational system
- Software for the ATP production ATP & Flight Qualification
- Software for customer Maintenance ATP, for repairs, maintenance and periodic calibrations

We will be happy to assist with any query or request, **The Chaban Group**.
